23rd March 2020

COMMENCEMENT OF FEEDER (COC) SERVICE BETWEEN KUALA TANJUNG AND PORT KELANG

Legend Logistics Group is pleased to announce the commencement of its new feeder (COC) service between Port Kelang – Kuala Tanjung Port with the deployment of the first set of tug and barge (IG Bravo and IG 2510), making its maiden call at Port Kelang on 25th March 2020 and Kuala Tanjung Port on 28th March 2020.

The barge (IG 2510) provides a trade capacity of 210teus laden (nominal capacity is 352teus), offering fixed weekly sailing schedule.

Strategically located along the Malacca Straits, Kuala Tanjung Port is set to become Indonesia's biggest port in the West Archipelago. In its first phase of completion, Kuala Tanjung Multipurpose Terminal (KTMT) is already offering facilities of three ship-to-shore cranes, eight automated rubber-tired gantry cranes, two mobile harbour cranes for containers and dry bulk goods.

With a number of reputable factories operating in Kuala Tanjung Industrial Estate that encompasses the Sei Mengkei Special Economic Zone, Legend aims to seize the opportunity as a first mover advantage and game changer to expand into this new service with a strong value proposition for its customers.

This inaugural Kuala Tanjung feeder service sets an important milestone for Legend, value adding its solutions as a regional feeder services at operationally challenged ports.

Yours Sincerely,

CK Than
Chief Executive Officer
Legend Logistics Group
